This reference guide provides pilots with a quick and easy access to most points concerning flying in a modern aircraft. The items are listed in alphabetical order and there is a comprehensive index and the most complete list of currently-used aeronautical abbreviations ever published. The book includes everything that a student pilot, a qualified PPL or a career pilot training towards a CPL or IR will need.

This review guide is designed as a quick reference guide or radio communications training self study guide. This covers VFR & IFR radio communications. Build your confidence by knowing what to say and when. Designed to fit in your flight bag.

Flying and operating an aircraft is a massive responsibility done so under regulation that requires unique training, knowledge and skills that all start with an understanding of very specific terminology, abbreviations and acronyms. The essentials are included in this 6 page laminated guide written succinctly and organized alphabetically so you can find terms, illustrations and diagrams faster than any other source. Designed for easy storage and durability this guide will be your copilot for years to come whether you are entering flight school or as a seasoned pilot who would like a well-rounded quick refresher. Also perfect reading material for curious passengers. 6 page laminated guide includes: Essential terms with definitions from A to Z Illustrations and diagrams

The updated 11th edition of the Aeronautical Chart User 's Guide by the FAA is a great reference for novice pilots and professionals alike. Printed in full color with detailed examples, this book provides all the information students and pilots need to know about all the symbols and information provided on US aeronautical charts and chart navigation publications. Readers will find information on VFR charts, aeronautical chart symbols, helicopter route charts, flyway planning charts, IFR enroute charts, explanation of IFR enroute terms and symbols, Terminal Procedure Publications (TPPs), explanation of TPP terms and symbols, airspace classifications, and an airspace class table.
