The Science of Happiness - Happiness in Life | Happify

The Science of Happiness. November 2, 2020 admin. Good morning, friends. In the past few weeks I have posted a few memos about happiness, for a good reason: There are many who think that their happiness in life — especially now — is determined by elements beyond their control.

The Science of Happiness - Your Life Is Now

The phrase "the science of happiness" refers to a new field of social science called positive psychology. Contrary to popular belief, it is not "positive thinking" or self-help, but a broad empirical field of research and application worldwide. According to one of its pioneers Chris Peterson, simply put, positive psychology is the study of those things that make life worth living.
