As a result, the presence of vacancies which alters local oxidation states does not affect the low overpotential of Fe-doped NiOOH. We conclude that the secret to the success of doping NiOOH with iron is the ability of iron to easily change oxidation states, which is critical during the chemical reaction of water oxidation.

The secret behind the success of doping nickel ...

The reason behind that — and behind Apple ' s success — is that its devices are beautiful to look at and a pleasure to use. That ' s why the company has such a powerful brand and lofty stock valuation. The marketing helps and the media and fan frenzy never hurt, but it is the quality of the products that drive Apple ' s success.
