It may be called simply “The Purple Chair” Her opinions about second world war is very subjective, based on what she had heard from relatives and had read in some books on the subject, while she is not mentioning who and how started the Second World War and how much grief it carried the Eastern Europe, Russia, first of all.~~

~~NATIONAL BOOK AWARD WINNER • NATIONAL BESTSELLER • From one of America's iconic writers, a stunning book of electric honesty and passion that explores an intensely personal yet universal experience: a portrait of a marriage—and a life, in good times and bad—that will speak to anyone who has ever loved a husband or wife or child. Several days before Christmas 2003, John Gregory Dunne and Joan Didion saw their only daughter, Quintana, fall ill with what seemed at first flu, then pneumonia, then complete septic shock. She was put into an induced coma and placed on life support. Days later—the night before New Year's Eve—the Dunes were just sitting down to dinner after visiting the hospital when John Gregory Dunne suffered a massive and fatal coronary. In a second, this close, symbiotic partnership of forty years was over. Four weeks later, their daughter pulled through. Two months after that, arriving at LAX, she collapsed and underwent six hours of brain surgery at UCLA Medical Center to relieve a massive hematoma. This powerful book is Didion's attempt to make sense of the “weeks and then months that cut loose any fixed idea I ever had about death, about illness ... about marriage and children and memory ... about the shallowness of sanity, about life itself.~~

~~The author of the much-admired Tolstoy and the Purple Chair goes on a quest through the history of letters and her own personal correspondence to discover and celebrate what is special about the handwritten letter. Hailed as witty, moving, enlightening, and inspiring, Signed, Sealed, Delivered begins with Nina Sankovitch's discovery of a trove of hundred year-old letters. The letters are in an old steamer trunk she finds in her backyard and include missives written by a Princeton freshman to his mother in the early 1900s. Nina's own son is heading off to Harvard, and she hopes that he will write to her, as the Princeton student wrote to his mother and as Nina wrote to hers. But times have changed. Before Nina can persuade her child of the value of letters, she must first understand for herself exactly what it is about letters that make them so significant—and just why she wants to receive letters from her son. Sankovitch sets off on a quest through the history of letter writing—from the ancient Egyptians to the medieval lovers Abelard and Heloise, from the letters received by President Lincoln after his son's death to the correspondence of Edith Wharton and Henry James. Sankovitch uncovers and defines the specific qualities that make letters so special, examining not only historical letters but also the letters in epistolary novels, her husband's love letters, and dozens more sources, including her son's brief reports from college on the weather and his allowance. In this beautifully written book, Nina Sankovitch reminds us that letters offer proof and legacy of what is most important in life: love and connection. In the end, she finds, the letters we write are even more important than the ones we wait for.~~

~~Nina Sankovitch's American Rebels explores, for the first time, the intertwined lives of the Hancock, Quincy, and Adams families, and the role each person played in sparking the American Revolution. Before they were central figures in American history, John Hancock, John Adams, Josiah Quincy Junior, Abigail Smith Adams, and Dorothy Quincy Hancock had forged intimate connections during their childhood in Braintree, Massachusetts. Raised as loyal British subjects who quickly saw the need to rebel, their collaborations against the Crown and Parliament were formed years before the revolution and became stronger during the period of rising taxes and increasing British troop presence in Boston. Together, the families witnessed the horrors of the Boston Massacre, the Battles of Lexington and Concord, and Bunker Hill; the trials and tribulations of the Siege of Boston; meetings of the Continental Congress; transatlantic missions for peace and their abysmal failures; and the final steps that led to the signing of the Declaration of Independence. American Rebels explores how the desire for independence cut across class lines, binding people together as well as dividing them—rebels versus loyalists—as they pursued commonly-held goals of opportunity, liberty, and stability. Nina Sankovitch's new book is a fresh history of our revolution that makes readers look more closely at Massachusetts and the small town of Braintree when they think about the story of America's early years.~~

~~Chronicles the efforts of the author and her husband to open and run a small bookstore in a struggling Virginia coal mining community, a pursuit challenged by the difficult economic environment, widespread transitions away from hard-copy books and numerous eccentric patrons. 30,000 first printing.~~

~~The Lowells of Massachusetts were a remarkable family. They were settlers in the New World in the 1600s, revolutionaries creating a new nation in the 1700s, merchants and manufacturers building prosperity in the 1800s, and scientists and artists flourishing in the 1900s. For the first time, Nina Sankovitch tells the story of this fascinating and powerful dynasty in The Lowells of Massachusetts. Though not without scoundrels and certainly no strangers to controversy , the family boasted some of the most astonishing individuals in America's history: Percival Lowell, the patriarch who arrived in America in the seventeenth to plant the roots of the family tree; Reverend John Lowell, the preacher; Judge John Lowell, a member of the Continental Congress; Francis Cabot Lowell, manufacturer and, some say, founder of the Industrial Revolution in the US; James Russell Lowell, American Romantic poet; Lawrence Lowell, one of Harvard's longest-serving and most controversial presidents; and Amy Lowell, the twentieth century poet who lived openly in a Boston Marriage with the actress Ada Dwyer Russell. The Lowells realized the promise of America as the land of opportunity by uniting Puritan values of hard work, community service, and individual responsibility with a deep-seated optimism that became a well-known family trait. Long before the Kennedys put their stamp on Massachusetts, the Lowells claimed the bedrock.~~

~~“A poignant expression of the durability, grace, and potential of the human spirit” set in a post-nuclear dystopia where words are worth killing for (Jean M. Auel, author of the Earth's Children series). By the late twenty-first century, civilization has nearly been destroyed by overpopulation, economic chaos, horrific disease, and a global war that brought a devastating nuclear winter. On the Oregon coast, two women—writer Mary Hope and painter Rachel Morrow—embark on an audacious project to help save future generations: the preservation of books, both their own and any they can find at nearby abandoned houses. For years, they labor in solitude. Then they encounter a young man who comes from a group of survivors in the South. They call their community the Ark. Rachel and Mary see the possibility of civilization rising again. But they realize with trepidation that the Arkites believe in only one book—the Judeo-Christian bible—and regard all other books as blasphemous. And those who go against the word of God must be cleansed from the Earth . . . In this “thought-provoking” novel of humanity, hope, and horror, M.K. Wren displays “her passionate concern with what gives life meaning (Library Journal).~~

~~Nina Sankovitch has always been a reader. As a child, she discovered that a trip to the local bookmobile with her sisters was more exhilarating than a ride at the carnival. Books were the glue that held her immigrant family together. When Nina's eldest sister died at the age of forty-six, Nina turned to books for comfort, escape, and introspection. In her beloved purple chair, she rediscovered the magic of such writers as Toni Morrison, Nathaniel Hawthorne, Ian McEwan, Edith Wharton, and, of course, Leo Tolstoy. Through the connections Nina made with books and authors (and even other readers), her life changed profoundly, and in unexpected ways. Reading, it turns out, can be the ultimate therapy. Tolstoy and the Purple Chair also tells the story of the Sankovitch family: Nina's father, who barely escaped death in Belarus during World War II; her four rambunctious children, who offer up their own book recommendations while helping out with the cooking and cleaning; and Anne-Marie, her oldest sister and idol, with whom Nina shared the pleasure of books, even in her last moments of life. In our lightning-paced culture that encourages us to seek more, bigger, and better things, Nina's daring journey shows how we can deepen the quality of our everyday lives—if we only find the time.~~
