Love is a gift of love and a gift of life for those who practice its plan. It is a book for all parents, especially those whose children are now on drugs or are exposed to those who use drugs. Pauline Neff has gathered enthralling, real-life accounts of young drug users who needed help and of their parents' role in seeing that they received it. Eight families describe, in very graphic, heartrending terms, how their children successfully beat the drug habit through The Palmer Drug Abuse Program. PDAP is a privately financed twelve-step program, similar to the steps of AA. Ms. Neff explains each step to show how families can interpret and work through these steps in their own lives. Thousands of young people have found help through this method. Families have been reunited, and parents' own lives have been changed drastically in the process. If you are a parent of a young person in America today, Tough Love may be the most important book you will ever read. It may save your life.

In this book, former Chicago police detective J. J. Bittenbinder shows you how to protect yourself and your family against crime - on the streets, on vacation, and in your home. You'll learn how criminals select their victims, how to avoid becoming a victim, and what to do if you're targeted for attack.

This book is for team members and managers who use Microsoft Project Server 2010 to collaborate on projects by entering progress on tasks, contributing to Project sites, and accessing views and data in the system. If you don't expect your team members and executives to crawl through large books to find the golden nuggets they need to use the software effectively, give them this book instead--it focuses on this audience in a concise and compact presentation. After four generations of Project Server, this remains the only book specifically tailored for this group.
