"The complete technical manual and troubleshooting guide for motorhomes, travel trailers, fifth wheels, folding campers, truck campers, and vans"--Notes.

This problem-solving reference answers questions such as, "Why do interior lights dim or burn out rapidly" and "Why won't the batteries recharge after a night without electricity?"

Old campers have an appeal that reaches back in time and can send your imagination soaring. Let's face it: they are cool. Who hasn't seen one parked on a boulevard with a "for sale" sign and pictured it bouncing along behind the family car, ready for adventure and fun? Unfortunately, campers are not quite homes, they are not quite cars, and they have their own unique systems and demands that make fixing and upgrading a challenge. Even if you have plenty of DIY experience, a camper speaks a foreign language. Consider Camper Rehab your Rosetta Stone for the language of Shasta, Dutchmen, or Airstream. This book is a top-to-bottom guide to getting a fifth-wheel, teardrop, or other camper trailer ready for the road and beyond. From basic troubleshooting to electrical and plumbing projects, replacing interior surfaces, and clever (sometimes "retro") decorating ideas, this book uses detailed illustrations, color photography, and a wealth of step-by-step, how-to information to get help you get your travel trailer into shape for your next big--or little--adventure. And in case you haven't pulled the trigger on that trailer you're eyeing on Craigslist just yet, Camper Rehab also walks you through the process of evaluating a potential purchase, identifying which issues are fixable and which are dealbreakers, as well as how to spot hidden problems. Written by accomplished DIY author Chris Peterson, whose light and approachable tone is coupled with the hardworking DIY information you need, Camper Rehab is a must-have for any camper owner or dreamer.

Are you thinking about doing a camper renovation? Do you need some direction as to how to remodel a travel trailer so you can live the nomadic life of your dreams? Restoring, remodeling, or even just redecorating an old RV can breathe new life into your trusty motorhome. If you're looking for a place to start, look no further. I wrote this book to show you how an RV renovation can be cheap and easy as long as you know how to start. In my book, *DIY Motorhome & RV Rehab and Renovation Guide*, I will take you through the complete process of planning your remodel from start to finish. I'll show you how to pick the right RV for you, how to plan the interior layout, and what you should be sure to do when undertaking a remodel. You really can do-it-yourself when it comes to RV renovation and remodel. You Call the Shots I'm a bit of a backyard mechanic. Pretty much since I was old enough to hold a wrench, I was working on some sort of project with my dad. He was a tinkerer, inventor, and all-around handyman. His favorite projects were fixing up cars and old campers - Airstreams, motorhomes of all classes, and RVs of all sizes. In fact, when he passed away, I am sure there were at least 3 or 4 unfinished, ongoing projects still left in his garage. Luckily, I inherited much of his know-how when it came to refurbishing and refinishing fixer-uppers. It's Easy - Anyone Can Do It! Redecorating a used RV is the easiest way to customize your new home on wheels. In fact, family vacations taken in an RV are, on average, 27-62% cheaper than other methods of travel. You can see the country and make memories together that you will not soon forget. Those monetary savings start when you decide to purchase a used camper and make it your own rather than buying a brand new one. Don't know where to start with your RV renovation? Start with my book! In my book about renovating an RV, you will learn the best way to plan your travel trailer remodel. In this book, you will see where to begin when taking on such a huge task as renovating and redecorating a motorhome. You will learn all about how to remodel, redecorate, and refurbish an RV, camper, motorhome, and travel trailer.
