The "Gamecaller"- a unique name for a unique occupation given by a unique character himself. M.D. Pettie was the gamecaller, "calling games" for a group of dropout professionals who roamed the world playing a series of consciousness-expanding games... Zen master... cult leader... a CIA operative... con man... saint... [and] storyteller. He never claimed to be anything more than a student and a bemused observer of human folly... This is the personal story of some of the games that he invented, told by one of his players. The book that you are reading, another example of the gift economy, was originally given to a guest at the Zen Hostel. What are we? The Damned childer of caine? The grotesque lords of humanity? The pitiful wretches of eternal hell? We are vampires, and that is enough. I am a vampire, and that is far more than enough. I am that which must be feared, worshipped and adored. The world is mine -- now and forever. No one holds command over me. No man. No god. No prince. What is a claim of age for ones who are immortal? What is a claim of power for ones who defy death? Call your damnable hunt. We shall see whom I drag screaming to hell with me. New insight into vampire origins and the undead curse itself, in the Book of Nod tradition.
