So which cars are best for fuel efficiency? Find out below – we've created this buying guide to show you the best fuel efficient cars for MPG available on the UK market in 2020. The best cars to buy for MPG are reviewed below: Toyota Prius; Ford Focus 1.5 TDCi; Skoda Octavia 1.6 TDI; Honda Civic 1.6 iDTEC; Peugeot 208 1.5 BlueHDi; Renault Clio dCi 90

Top 10 Best Cars For MPG (2020 Update): UK Market Guide to ...

Over the years the speed of 56mph has often been talked about as being the optimum speed. This was due to the old fuel consumption test being run at three speeds: urban, 56mph and 75mph – and 56mph was always, unsurprisingly, the most efficient of these. Typically, cars are most efficient at 45-50mph.

How to save fuel - the ultimate guide | RAC Drive

More energy means more fuel, which means worse efficiency. Temperature Both extremely hot or cold conditions can strain an engine's components and make it more difficult to accomplish its job.

Most Fuel Efficient Cars in 2020 | The Drive

While manual transmissions used to be more fuel-efficient than automatics, some of today's automatic transmissions are changing that notion. Advertisement One thing that's helping automatic transmission catch up is the wider use of continuously variable transmissions (CVTs) .

Which has better fuel economy: manual or automatic ...

In general, diesel cars are more fuel efficient than cars that run on gasoline. This is because diesel has a higher density, and therefore more BTU's per gallon of gasoline. This means you need more gas to equal the output of diesel. Buying a diesel car will likely net you many more miles per gallon.
