They were inseparable until an innocent mistake tore them apart. Growing up, Viola and Issy clung to each other in the wake of their mother's eccentricity, as she dragged them from a commune to a tiny Welsh village. They thought the three of them would be together forever. But an innocent mistake one summer set them on drastically different paths. Now in their twenties, Issy is trying to hold together a life as a magazine art director, while Viola is slowly destroying herself, consumed with guilt over the events they unknowingly set into motion as children. When it seems that Viola might never recover, Issy returns to the town they haven't seen in a decade, to face her own demons and see what answers, if any, she can find. A deeply moving, gripping debut, this is a novel about the secrets we carry, and the bonds between twins.

A sweeping and turbulent drama about the anxieties of postwar Britain, where one strong and inspirational young woman looks to find her place, no matter the cost. Sometimes, the truth lies in fiction It's hard to be an American girl in 1957. Especially when your dad's job means you have to move four thousand miles from home. Especially if you'd rather play baseball than wear a dress. Especially if you see your mom fraying a little more from anxiety each day. And especially if being five minutes older

means you have to protect your fragile twin brother. Still, Hedy Delaney loves her family, and she's trying to make the best of her new life on a U.S. airbase in England. After all, her dad's a war hero, her mother's a beauty, and her brother's a brainiac who writes moving stories about space travel. Then one tragic day, the unforeseen occurs and all three are ripped away, leaving Hedy alone with countless questions. What really happened on the airbase? What went on behind military closed doors? What were the secrets that could never be told? And how could any of it have led to her family's destruction? In her search for the truth, Hedy turns to a story her brother began months before he died. Deciding to finish what her brother started, Hedy begins to piece together what happened to her family. But whether she's ready for what she'll discover is another matter entirely. A sweeping and turbulent family drama, *The Wonderful* asks whether writing fiction can uncover fact, and if it's ever better to let the truth remain hidden. Sometimes, it's safer not to finish what you've started.

Sometimes it is the people we think we know the best who surprise us the most. 1986, London: Klaudia is about to start high school. She's embarrassed by her German father—he's the janitor at her school, he has a funny accent and a limp. And when the kids at school taunt her by saying he was a Nazi during the war, she can't dispute them with confidence. She's never known exactly what he may or may not have done during the war. It is a period of time no one will ever discuss. 1995, Leeds: Eliza is in love. She has dropped out of university to pursue her passion—dance. But then talented artist Cosmo comes along and soon Eliza realizes that she might have room in her life for two loves. But can she really continue to lie to everyone around her? And why is she so afraid of the truth? 1930s, Germany: Two brothers are trying to fend for themselves during the chaos of the rise of the Third Reich. One brother rallies for the Fuhrer, one holds back. One is seemingly good, one bad. But history seems to tell a completely different story. All of these characters' fates will collide in a novel that explores what we are ultimately willing to do for love. Saskia Sarginson hypnotically examines whether our identities are tied to where we've come from in a captivating mystery that shows how sometimes history doesn't tell the true story.
