Joyce Carol Oates's Wonderland Quartet comprises four remarkable novels that explore social class in America and the inner lives of young Americans. Spanning from the Great Depression to the turbulent Vietnam War era, Wonderland is the epic account of Jesse Vogel, a boy who emerged from a family tragedy with his life spared but his world torn apart. Orphaned after watching his father murder his entire family, Jesse embarks on a personal odyssey that takes him from a Dickensian foster home to college and graduate school to the pinnacle of the medical profession. As an adult, Jesse must summon the strength to reach across the "generation gap" and rescue his endangered teenaged daughter, who has fallen into the drug-infused 1960s counterculture. Hailed by Library Journal as "the greatest of Oates's novels," Wonderland is the capstone of a magnificent literary excursion that plunges beneath the glossy surface of American life. Wonderland is the final novel in Joyce Carol Oates's Wonderland Quartet. The books that complete this acclaimed series, A Garden of Earthly Delights, Expensive People, and them, are also available from the Modern Library. J

Friends since they met at Brown University freshman year, Jessica Pan and Rachel Kapelke-Dale vowed to keep in touch after senior year through in depth and brutally honest weekly e-mails. After graduation, Jess moves to Beijing while Rachel heads to New York. Each spends the next few years tumbling through adulthood and reinventing themselves in various countries, including France, China and Australia. They swap tales of teaching classes of military men, running a magazine, and flirting in foreign languages, along with breakups and breakdowns.

When her mother uproots them again to another home and takes a job as housekeeper, ten-year-old Mavis is determined to find a best friend in Landry, Alabama, where the summer also holds the promise of friendship and change for a sad man, a stray dog, and a timid girl.

A young girl enters two bizarre worlds by following a white rabbit down a rabbit hole and moving through the mirror on the mantel.

"A house of wonders itself. . . . Wonderland inspires grins and well-what-d'ya-knows" —The New York Times Book Review From the New York Times—bestselling author of How We Got to Now and Extra

Life, a look at the world-changing innovations we made while keeping ourselves entertained. This lushly illustrated history of popular entertainment takes a long-zoom approach, contending that the pursuit of novelty and wonder is a powerful driver of world-shaping technological change. Steven Johnson argues that, throughout history, the cutting edge of innovation lies wherever people are working the hardest to keep themselves and others amused. Johnson's storytelling is just as delightful as the inventions he describes, full of surprising stops along the journey from simple concepts to complex modern systems. He introduces us to the colorful innovators of leisure: the explorers, proprietors, showmen, and artists who changed the trajectory of history with their luxurious wares, exotic meals, taverns, gambling tables, and magic shows. In *Wonderland*, Johnson compellingly argues that observers of technological and social trends should be looking for clues in novel amusements. You'll find the future wherever people are having the most fun.

At the age of thirteen, Danny Sugerman- the already wayward product of Beverley Hills wealth and privilege- went to his first Doors concert. He never looked back. He became Jim Morrison's protégé and still in his teens- manager of the Doors and then Iggy Pop. He also plunged gleefully into the glamorous underworld of the rock 'n' roll scene, diving headfirst into booze, sex and drugs: every conceivable kind of drug, ever day, in every possible permutation. By the age of twenty-one he had an idyllic home, a beautiful girlfriend, the best car in the world, two kinds of hepatitis, a diseased heart, a \$500 a day heroin habit and only a week to live. He lived. This is his tale. Excessive, scandalous, comic, cautionary and horrifying, it chronicles the 60s dream gone to rot and the early life of a Hollywood Wild Child who was just brilliant at being bad.

"The full text of Lewis Carroll's novel with its many hidden meanings revealed by David Day"--Cover.

From Barbara O'Connor, the beloved author of *Wish*, comes a big-hearted story about the meaning of friendship, the challenges of growing up, and one lovable runaway dog. Mavis Jeeter is fearless and bold, but she has never lived in one place long enough to have a real best friend. Her flighty mother has uprooted them again to another new home and taken a job as a housekeeper for the Tully family. Mavis wants this home to be permanent—which means finding herself a best friend. Rose Tully is a worrier who feels like she doesn't quite fit in with the other girls in her neighborhood. Her closest friend is Mr. Duffy, but he hasn't been himself since his dog died. Rose may have to break a few of her mother's many rules to help Mr. Duffy—and find someone who really understands her. Henry has run away from home, but he craves kindness and comfort—and doesn't know where to look for them. When Mavis and Rose hatch a scheme to find Mr. Duffy a new dog, their lives and Henry's intersect—and they all come to find friendship in places they never expected.

A little girl falls down a rabbit hole and discovers a world of nonsensical and amusing characters.
