The bestselling "untextbook" gets students thinking like sociologists

The "untextbook" that teaches students to think like sociologists.

Revised edition of the author's You may ask yourself, [2015]

The bestselling "untextbook" that makes the familiar strange

The "untextbook" that teaches students to think like a sociologist, now available in a core edition. You May Ask Yourself gives instructors an alternative to the typical textbook by emphasizing the "big ideas" of the discipline, and encouraging students to ask meaningful questions. Conley employs a "non-textbook" strategy of explaining complex concepts through personal examples and storytelling, and integrates coverage of social inequality throughout the text.

In the Fourth Edition of *Cultures and Societies in a Changing World*, author Wendy Griswold illuminates how culture shapes our social world and how society shapes culture. Through this book, students will gain an understanding of the sociology of culture and explore stories, beliefs, media, ideas, art, religious practices, fashions, and rituals from a sociological perspective. Cultural examples from multiple countries and time periods will broaden students' global understanding. Students will develop a deeper appreciation of culture and society from this text, glean insights that will help them overcome cultural misunderstandings, conflicts, and ignorance and that will help equip them to live their professional and personal lives as effective, wise citizens of the world.
