Zollinger s Atlas of Surgical Operations, Tenth Edition [PDF]

Some 75 years ago, this ATLAS was created to document proven and safe operative techniques in common use by general surgeons. Many improvements and changes have occurred in the previous nine editions including use of stapled techniques for gastrointestinal anastomoses and minimally invasive surgery. These two techniques were joined in full flower in the ninth edition wherein what was once considered advanced laparoscopic techniques in the 1990s is now in common use and taught as essential ...

Packed with 1,800 images—the gold-standard resource for performing surgical procedures safely and effectively has been fully updated and revised Zollinger's Atlas of Surgical Operations has been the most trusted text of its kind for more than 50 years. This new edition follows the proven-effective design of previous editions, with each procedure fully explained across an illustrated two-page spread. The right page contains stunningly rendered line drawings with color highlights depicting every important action surgeons must consider while performing the operation; the facing page includes consistently formatted coverage of indications, preoperative preparation, anesthesia, position, operative preparation, incision and exposure, procedure, closure, and postoperative care. Zollinger's Atlas of Surgical Operations is useful as a general surgery refresher or for learning a particular procedure. Thirteen added chapters cover procedures not in previous editions, including:
Robotic surgery
Laparoscopic surgery
Endovascular procedures

The classic step-by-step atlas of general surgery procedures — now in color and updated with the latest laparoscopic operations A Doody's Core Title for 2011! 1615 color-highlighted illustrations "...a beautifully illustrated atlas of modern surgical procedures....While in other atlases line drawings may simplify and operative photographs may add realism, the illustrations in this atlas allow the surgeon to visualize both the anatomy and the operation. Beyond this, the softly colored illustrations are aesthetically pleasing and invite reading of the accompanying narrative....In sum, while the ninth edition of Zollinger's Atlas of Surgical Operations differs from the early editions in many ways, it nonetheless evokes the enduring qualities of its predecessors and will guide yet another generation of surgeons."--JAMA For more than half-
